● ● ● **WE'RE EXCITED TO BRING OUR ENERGY
& EXPERIENCE TO YOUR COMMUNITY!** ● ● ●

Amy's 8+ years as a librarian include presenting musical storytimes and edge-of-your-seat booktalks. She connects with kids using interactive elements that support literacy and encourage creativity.

Andy's experience creating stories and art with kids at workshops and book events, plus his whimsical art and music making abilities make him a natural fit with kids of all ages.

We have the most fun visiting libraries and schools when the kids have spent time with our works before our visits, whether reading our book or creating art related to the books.

*** DISCOUNTS ***

\$250 discount if you provide book sales at an event. Consider coordinating book sales through a local bookstore or we can put you in contact with our publishers.

We will waive up to **\$500** of session fees, if you purchase a book for every student at least one school visit. Our hope is that kids farthest from educational justice feel empowered to see themselves as readers. Contact us to discuss details.

Consider coordinating with another library/school in your area to further reduce the cost on your end.

Our goal is to connect with kids. If our rates fall outside your budget, please contact us so we can discuss options!
